Career Objective

Certified Associate Cybersecurity Professional with a CSPA of 4.91 — highest in ICDFA Batch A2025. Seeking a role in web application security or digital forensics where I can assess vulnerabilities, investigate threats, and think like an attacker.

Work Experience

Apprentice & Community Development Lead

March 2025 – April 2026

International Cybersecurity & Digital Forensics Academy (ICDFA)

Remote

Apprentice — Web Application Security & Digital Forensics

- Completed 12-month structured training across 89 skill units — web app security, digital forensics, cloud security, mobile/IoT forensics, and AI for forensics. Graduated High Distinction, CSPA 4.91, #1 in cohort of 49.
- Completed dual capstone projects in web application security and digital forensics investigations. Accredited by ACTD.

Webinar Moderator & Community Development Lead — CSR-002

- Moderated a virtual cybersecurity awareness webinar (~35 attendees) on Account Takeover, Cyberbullying, and Social Engineering; authored the 37-page impact report.
- Event achieved 4.8/5 quality rating, 100% organisational satisfaction, and estimated reach of 245–350 people.

Projects & CTF Experience

Storage Drive Forensic Recovery Tool v2.2

2025 – 2026

Kali Linux · Bash/Shell Scripting · PhotoRec · Foremost · TestDisk · VirtualBox

- Built an automated forensic recovery tool to recover photos and MOV files from a reformatted USB drive; packaged as a reusable open-source Bash script — github.com/IFEANYI-EGENTI/Recovery_Tool_v2.2

Web Application Security CTF Challenge — CTF205

July 2025

ICDFA · Target: pension.nasarawastate.gov.ng · Tools: SQLMap, Burp Suite, curl

- Identified a time-based blind SQL injection vulnerability in a WAF-protected government login portal via manual reconnaissance, payload crafting, and Base64 decoding of hidden HTML hints to capture the first flag.
- Pivoted from automated SQLMap attacks (blocked by WAF/IPS returning HTTP 406/508) to manual injection via Burp Suite Repeater, successfully confirming database name and backend DBMS (MySQL/MariaDB).

Education

University of Nigeria

December 2021 – Present

B.Eng. Electronics and Computer Engineering — In Progress

International Cybersecurity & Digital Forensics Academy (ICDFA)

March 2025 – April 2026

Professional Certificate — Web Application Security and Digital Forensics

High Distinction · CSPA 4.91 · #1 in Batch A2025 · 89 Skill Units

Yaba College of Technology Secondary School

2021

WASSCE — Science & Technical

Certifications

Certified in Web Application Security and Digital Forensics

April 28, 2026

ICDFA · ACTD Accredited · High Distinction · CSPA 4.91 · Cert ID: ICDFA-2026-7a3a-2CACDCFB-c8

TechyJaunt Beginner Course in Cybersecurity

June 2025

TechyJaunt · Credential ID: Tj5/2025/CS/013

Additional Information

Security Skills: Web Application Security · Digital Forensics · Penetration Testing · WAF Evasion · Vulnerability Assessment

Tools & Platforms: Kali Linux · GitHub · Burp Suite · SQLMap · Autopsy · PhotoRec · Foremost · TestDisk · Bash · Canva

Programming: Bash/Shell Scripting · Python Programming

Languages: English (Fluent) · Deutsch (Beginner — In Progress)

Recommendation: ICDFA/REG/REC/2026/707F9E — Dr. Zaharaddeen Idris, Registrar, ICDFA
